PROFESSIONAL EXPERIENCE

Team Lead & Adobe EDS Developer — *American University*

May 2025 – Jun 2026

- Led the end-to-end migration of the university's website from CommonSpot CMS to Adobe Edge Delivery Services, modernizing content architecture and improving page performance.
- Led a cross-functional team of 4 developers as Team Lead — code reviews, sprint/task planning and deployment coordination.
- Designed and developed reusable static and dynamic Adobe EDS blocks to accelerate page assembly and design consistency.

Technologies: *Adobe EDS, JavaScript, HTML, CSS, AEM, Git*

Adobe Workfront & Fusion Developer — *Credera (Internal Project)*

Jan 2025 – Apr 2025

- Built Adobe Workfront Fusion scenarios orchestrating data flow between Workfront and external services via Watch Events, HTTP, and JSON transformation modules.
- Engineered a Generative AI integration layer connecting Workfront Fusion to the OpenAI API for contextual, AI-generated responses.
- Built fault-tolerant error-handling routes and execution logic for production-grade automation.

Technologies: *Adobe Workfront, Workfront Fusion, OpenAI API, JSON, REST/HTTP*

Sr. AEM Developer — *Abbott*

Aug 2022 – Dec 2024

- Owned analysis, solution design, estimation and development for the Abbott Store and Glucerna Store eCommerce platforms.
- Integrated Magento Commerce (MBO) customer/order data via GraphQL into custom AEM components.
- Built JUnit test coverage for the application using AEM context and Mockito.

Technologies: *JDK 11, AEM Cloud SDK, IntelliJ, Git, Adobe Commerce (MBO)*

Sr. AEM Developer — *Credera (Internal Project)*

Jan 2022 – Aug 2022

- Enhanced core features of the AEM–Solr connector, including collection indexing and query boosting.
- Developed content page auto-indexing, facets and featured-results tooling.

Technologies: *JDK 11, AEM 6.5.17, IntelliJ, AEM Cloud, Apache Solr*

AEM Lead & Sr. AEM Developer — *TLC Digitech*

Dec 2019 – Jan 2022

- Owned all project activities end-to-end as Team Leader for a premium hotel membership platform.
- Built AEM templates, Sling Models, Sling Exporters, Sling Servlets, schedulers, REST APIs and payment integration.
- Developed content exporter APIs powering the program's mobile apps.

Technologies: *JDK 11, AEM 6.4, IntelliJ, Salesforce, Mulesoft*

Sr. AEM Developer — *Lululemon Athletica Canada Inc.*

Dec 2018 – Dec 2019

- Worked with the AEM Asset API and DAM performance R&D; configured video renditions and auto-publish workflow.
- Developed a trash-button feature to prevent permanent asset deletion, and schedulers to automate DAM activities.

Technologies: *JDK 8, AEM 6.4, IntelliJ, Asset Optimization Tools*

AEM Developer — *MG Motors India*

Jun 2017 – Dec 2018

- Delivered analysis, design and development of static and dynamic AEM components and workflow.
- Implemented third-party API integrations for the marketing site.

Technologies: *JDK 11, AEM 6.4, IntelliJ, Postman*

AEM Developer — *Apple Incorporation*

Jul 2016 – Jun 2017

- Migrated the platform from AEM 6.1 to AEM 6.3 with code optimization.
- Modernized templates and components from SCR annotations to OSGi annotations.
